

CEDAR WOLF GROUP LLC

DEFENSE TEXTILE CAPABILITY STATEMENT

Specification-driven textile engineering, sourcing, prototyping, manufacturing oversight, and production readiness

UEI	UDYKX7SXAFV3	CAGE	22EA6
SAM	Active through July 1, 2027	SBA STATUS	VetCert application pending

CAPABILITY OVERVIEW

Cedar Wolf Group LLC develops and manages technical-textile solutions for defense and public-sector requirements. Led by Sean Monahan, Vice President of Textiles, the capability applies more than 30 years of specification-driven product development, material sourcing, manufacturing, quality, and national-account execution to rapid, cost-disciplined defense textile programs. Current sensitive and classified project details are not disclosed.

CORE COMPETENCIES

Capability	What Cedar Wolf Delivers
Multi-component textile integration	Engineering of distinct performance fabrics and structural elements into unified, producible assemblies, including visual, NIR, and LWIR concealment functions.
Domestic and international sourcing	Identification, qualification, and cost management of performance materials and suppliers, with domestic sourcing strategies supporting Berry Amendment requirements.
Rapid prototyping and design to cost	Specification review, pattern and construction development, prototype coordination, reverse engineering, cost engineering, and production-ready documentation.
Manufacturing and sewing oversight	Management of qualified cut-and-sew and specialty manufacturing resources, including materials, costing, schedules, workmanship, quality, and on-time delivery.
Specification and quality compliance	Supplier qualification, inspection planning, corrective action, documentation, and disciplined execution against customer, MIL-SPEC, and contract requirements.
Embedded functional components	Experience integrating active and functional elements into wearable assemblies, supporting future sensor, signal-management, and mission-system applications.

DEFENSE CUSTOMER VALUE

- Faster movement from requirement to prototype through an established sourcing and manufacturing network.
- Commercial-scale cost and quality discipline transferable to demanding government specifications.
- Field-oriented integration of performance materials into lightweight, repairable, producible systems.
- Executive accountability across sourcing, development, manufacturing oversight, quality, logistics, and delivery.

SEAN MONAHAN VICE PRESIDENT OF TEXTILES

Sean Monahan brings more than 30 years of leadership in textile product development, sourcing, manufacturing, multi-vendor fulfillment, and national retail programs. His background spans design and pattern development, domestic and overseas production, specification compliance, costing, quality, logistics, sales, and scale-up. He leads Cedar Wolf's technical-textile capability supporting Department of Defense requirements.

REPRESENTATIVE ACHIEVEMENTS

- Led a patent-pending multi-component garment construction integrating distinct fabrics and structural shaping elements into a unified assembly.
- Built and led multi-division apparel and consumer-product operations, managing employees, independent representatives, sourcing, production, quality, logistics, and national distribution.
- Directed domestic and overseas sewing and manufacturing operations with direct responsibility for materials, costing, quality standards, and delivery.
- Reduced product costs 35 to 50 percent through strategic sourcing and delivered more than \$1.2 million in separate sourcing reductions.
- Integrated electroluminescent lighting and other functional elements into wearable garments through specialized construction methods.
- Built and expanded programs for Walmart, Target, Costco, Petco, PetSmart, and other national accounts.

REPRESENTATIVE COMMERCIAL EXPERIENCE

Capability	What Cedar Wolf Delivers
Rubies II LLC	Product, sales, sourcing, and national-account program leadership; grew Target volume 166 percent, expanded PetSmart volume fifteenfold, and built the Petco account to \$1.5 million.
The Diamond Collection	Full operating and P&L leadership across multiple divisions; directed domestic production, overseas sourcing, quality, fulfillment, and sustained growth.
LRS Apparel Ltd	Founded and scaled multi-brand operations; led the patent-pending multi-component garment program and national retail distribution.
Fantasy Lingerie Inc	Led product development, sourcing, production, and cost engineering, including a manufacturing transition that reduced costs 35 to 50 percent.

SELECTED NAICS CODES

- 315210 Cut and Sew Apparel Contractors
- 315990 Apparel Accessories and Other Apparel Manufacturing
- 541330 Engineering Services
- 541614 Process, Physical Distribution, and Logistics Consulting Services
